INDEPENDENT AUDITORS' REPORT

To the Board of Trustees Troy Township, Illinois

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying modified cash basis financial statements of the governmental activities and each major fund of Troy Township, Illinois, as of and for the year ended March 31, 2022, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities and each major fund of Troy Township, Illinois, as of March 31, 2022, and the respective changes in modified cash basis financial position for the year then ended in accordance with the modified cash basis of accounting as described in Note 1.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Troy Township, Illinois, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to that matter.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1, this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Troy Township, Illinois' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the Township's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Township's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Troy Township, Illinois' basic financial statements. The other information, including the individual fund financial statements and notes to other information, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

Supplemental Information

Management is responsible for the supplemental information included in the annual report. The supplemental information comprises the Road Fund consolidating schedule and IMRF supplemental schedules but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the supplemental information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the supplemental information exists, we are required to describe it in our report.

Report on Summarized Comparative Information

We previously audited Troy Township, Illinois' March 31, 2021 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated July 19, 2021. In our opinion, the summarized comparative information presented herein as of and for the year ended March 31, 2021, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Statement of Revenues Received, Expenditures Disbursed, and Changes in Fund Balances- Governmental Funds
For the Year Ended March 31, 2022

| Reconciliation to the Statement of Activities: | | |
|---|--------------------------|---------------------------------|
| Net Change in Fund Balances - total governmental funds | \$ 473,041 | 210,301 |
| Amount reported for governmental activities in the Statement of Activities are different because: | | |
| Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position: Principal payments | 135,610 | 206,333 |
| Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. The change in fund balance must be increased by capital purchases and decreased by depreciation expense: | | |
| Capital asset purchases Capital asset disposals, net Depreciation | 83,149 - (189,661) | 135,429 (1,297) (196,614) |
| Change in net position of governmental activities (Statement B) | \$ 502,139 | 354,152 |

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Troy Township (the Township) is an Illinois unit of local government. The Township maintains a general assistance fund which assists eligible residents within the Township's boundaries by subsidizing costs for shelter, food and medical supplies. Assessing property values within the Township and contributing to various community and senior programs are additional activities of the Township. The Township operates a road and bridge district which maintains the roads and bridges within the Township that are not under the jurisdiction of another governmental unit.

These financial statements are presented using the modified cash basis of accounting. This modified basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements.

A. The Reporting Entity

The Township follows the provisions of Governmental Accounting Standards Board Statement No. 39, "Determining Whether Certain Organizations Are Component Units – an amendment of Statement No. 14." As defined by generally accepted accounting principles established by GASB, the financial reporting entity consists of the primary government, as well as its component units, which are legally separate, tax-exempt entities and meet all of the following criteria:

- 1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government, its component units, or its constituents.
- 2. The primary government, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
- The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitled to, or has the ability to otherwise access, are significant to the primary government.

The Township, for financial purposes, includes all funds relevant to the operations of the Township. The accompanying financial statements present the Township's primary government over which the Township exercises significant influence. Significant influence or accountability is based primarily on operational or financial relationships with the Township.

The Township has determined that the Troy Road District fits the definition of a component unit. Although legally separate from the Township, the Road District's purpose is to construct and maintain roads solely within the Township. The Road District's funds have been blended with the Township on the accompanying financial statements.

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements

The government-wide financial statements (i.e., The Statement of Net Position and Statement of Activities) report information on all of the non-fiduciary activities of the Township. The effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

B. Government-wide and Fund Financial Statements – (Continued)

<u>Government-wide Financial Statements</u> – (Continued)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefits from goods, services, or privileges provided by a given function, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into one major category: governmental. An emphasis is placed on major funds within the governmental category.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements. The Township does not report any proprietary or fiduciary funds.

A fund is considered major if it is the primary operating fund of the Township or meets the following criteria:

- at least 10 percent of the corresponding total for all funds of total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at that category or type, and
- b. total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

All of the Township's funds are considered to be major funds. The funds reported by the Township are described below.

<u>Governmental Funds Types</u> – the focus of the governmental funds measurement (in the fund statements) is upon determination of financial position and changes in financial position rather than upon net income. The following is a description of the governmental funds of the Township:

<u>Town Fund</u> – The Town Fund is the general operating fund of the Township. It is used to account for all financial resources except those required to be accounted for in another fund.

B. Government-wide and Fund Financial Statements – (Continued)

<u>Special Revenue Funds</u> – These funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. The major Special Revenue Funds of the Township are:

<u>Road & Bridge Fund</u> – The Road & Bridge Fund is the general operating fund of the Troy Township Road District, which is included in these financial statements as a component unit of the Township. Proceeds of this specific tax levy may be used for any necessary expenditures of the Road District. As such, the balance of the Road & Bridge Fund is reported as assigned for the Road District in the accompanying financial statements.

<u>General Assistance Fund</u> – The General Assistance Fund is used to account for the proceeds of specific revenue sources for the expenditures for relief within the Township and related administration.

C. Measurement Focus and Basis of Accounting

Measurement Focus

In the government-wide Statement of Net Position and the Statement of Activities, the governmental activities are presented using the economic resources measurement focus, within the limitations of the modified cash basis of accounting.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus, as applied to the modified cash basis of accounting, is used as appropriate.

All governmental funds utilize current financial resources measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

Basis of Accounting

In the government-wide Statement of Net Position, Statement of Activities and fund financial statements the governmental activities are presented using a modified cash basis of accounting. This basis recognizes assets, liabilities, net position/fund equity, revenues, and expenditures/expenses when they result from cash transactions with a provision for depreciation in the government-wide statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of this modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

If the Township utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis. All government-wide financials would be presented on the accrual basis of accounting.

D. Assets, Liabilities and Net Position

Cash & Cash Equivalents and Investments

<u>Cash Equivalents</u> – The Township considers cash equivalents as cash on hand, demand deposits, money market accounts and short-term investments.

<u>Investments</u> – Statutes authorize the Township to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agency, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, and the Illinois Public Treasurer's Investment Pool. At March 31, 2022, the Township has no investments other than the short-term investments reported as cash equivalents above.

Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental columns in the government-wide financial statements. All capital assets are reported at historical cost, or estimated historical cost if actual is unavailable. Estimated historical cost was used to value the majority of the assets acquired prior to February 1, 2004. Donated capital assets are reported at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation of all exhaustible capital assets arising from cash transactions are recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation.

Capitalization thresholds for the capital asset classes are disclosed below:

| Equipment and vehicles | \$5,000 |
|------------------------|----------|
| Buildings | \$10,000 |
| Infrastructure | \$50,000 |

The range of estimated useful lives by type of asset is as follows:

| Equipment and vehicles | 5-7 years |
|------------------------|-----------|
| Buildings | 40 years |
| Infrastructure | 40 years |

In the fund financial statements, capital assets arising from cash transactions acquired for use in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

D. Assets, Liabilities and Net Position – (Continued)

Equity Classification

In the government-wide statements, equity is classified as net position and displayed in three components:

a. Net Investment in Capital Assets—Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets. At March 31, 2022, net investment in capital assets consists of the following:

| Capital assets, at cost | \$ 4,119,628 |
|----------------------------------|-----------------|
| Less: Accumulated depreciation | 2,198,054 |
| Less: Outstanding obligations | 135,682 |
| Net investment in capital assets | \$ 1,785,892 |

- b. Restricted Net Position—Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted Net Position—All other net position that does not meet the definitions of "restricted" or "net investment in capital assets."

When both restricted and unrestricted resources are available for use, it is the Township's policy to use restricted resources first, then unrestricted resources as they are needed.

Reclassifications

Certain amounts presented in the prior year data may have been reclassified in order to be consistent with the current year's presentation.

NOTE 2: PROPERTY TAXES

The Township's property tax is levied each year on all taxable real property located within the Township during the month of December. The 2020 levy in the amount of \$2,721,065, adjusted to \$2,704,474 was received by the Township during the current fiscal year. The 2021 levy was passed by the Board on December 13, 2021 in the amount of \$2,838,347, adjusted to \$2,782,579 and will be received by the Township in the subsequent fiscal year. Property taxes attach as an enforceable lien on property as of January 1 and are payable in two installments early in June and September.

The following are the tax rate limits and the actual levied per \$100 of assessed valuation:

| | | | Actual | |
|--------------------|--------|--------|--------|--------|
| | Limit | 2021 | 2020 | 2019 |

TROY TOWNSHIP

Notes to Basic Financial Statements For the Year Ended March 31, 2022

NOTE 3: PERSONAL PROPERTY REPLACEMENT TAXES

The Township receives Personal Property Replacement Tax, which represents an additional State of Illinois income tax on corporations (certain utilities), trusts, partnerships, and subchapter S corporations and a new tax on the invested capital of public utilities providing gas, communications, electrical and waste services.

Revenues are collected by the State of Illinois under the replacement tax and are allocated and paid by the State eight times a year. The replacement tax law provides that monies received should be first applied toward payment of the proportionate share of the pension or retirement obligation which were previously levied on personal property. Remaining allocations are made at the discretion of the Board of Trustees.

NOTE 4: DEPOSITS

Illinois statute authorizes the Township to invest in obligations of the U.S. Treasury, U.S. Agencies and banks and savings and loan associations covered by the federal depository insurance. The Township may also invest in commercial paper of U.S. corporations with assets exceeding \$500,000,000 provided that (a) the obligations are rated with the three highest classifications by at least two standards rating services and they mature within 180 days from the date of purchase, and (b) no more than 25% of any fund is invested in such obligation at any one time and (c) such purchases do not exceed 10% of the corporation's outstanding obligations.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of bank failure, the Township's deposits may not be returned to it. The Township's deposit policy for custodial credit risk requires that 105% of the deposit balance will be covered when collateralization is required.

The Township's deposits and short-term investments may be covered by federal depository insurance (FDIC) or by securities held by the pledging financial institution. The FDIC currently insures the first \$250,000 of the Township's deposits at each financial institution, for each account type. Deposit balances over \$250,000 may be collateralized with securities held by the pledging financial institution at the discretion of the Supervisor. At March 31, 2022, the carrying amount of the Township's deposits (excluding MFT restricted cash) was \$2,377,027 and the bank balance was \$2,378,697. At March 31, 2022, \$1,878,144 of the Township's uninsured deposits were collateralized with securities held by the pledging financial institution. The remaining balance of uninsured deposits, \$553, was uncollateralized and exposed to custodial credit risk as of March 31, 2022.

NOTE 5: MOTOR FUEL TAX

The Township received an allotment of Motor Fuel Tax Funds from the State of Illinois. The allotment is paid directly to the Will County Treasurer. The Treasurer holds the funds and makes payments on approved road projects. The Township reports these funds in its Road & Bridge Fund. The following is a summary of the activity of the Township's motor fuel tax allotment for the period ended March 31, 2022:

| Balance, April 1, 2021 | \$ 203,049 |
|-------------------------|---------------|
| Allotments received | 105,542 |
| Less: disbursements | |
| Balance, March 31, 2022 | \$ 308,591 |

NOTE 8: RISK MANAGEMENT

The Township is exposed to various risks of loss related to torts; theft or, damage to, and destruction of assets; errors and omissions; injuries to employees; natural disasters; and net income losses. The Township participates in a public entity risk pool to administer property and liability coverage and employee compensation and liability insurance programs. The public entity risk pool does not transfer risk from the Township. There have been no significant reductions in insurance coverage or settlement amounts exceeding insurance coverage for the current year or the three prior years. TOIRMA issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the Township Officials of Illinois Risk Management Association, P.O. Box 517, Astoria, IL 61501.

NOTE 9: ILLINOIS MUNICIPAL RETIREMENT FUND

<u>Plan Description</u> – The Township's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Township's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

<u>Benefits Provided</u> – IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date). All of the Township's employees participate in the regular plan.

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings in the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011 are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of services, credit plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- ½ of the increase in the Consumer Price Index of the original pension amount.

NOTE 9: <u>ILLINOIS MUNICIPAL RETIREMENT FUND (IMRF)</u> – (Continued)

<u>Employees Covered by Benefit Terms</u> – As of December 31, 2021, the following Township employees were covered by the benefit terms:

| Retirees and Beneficiaries currently receiving benefits | | | |
|--|-----|--|--|
| Inactive Plan Members entitled to but not yet receiving benefits | 19 | | |
| Active Plan Members | 18 | | |
| Total | 58_ | | |

<u>Contributions</u> – As set by statute, the Township's Regular Plan members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Township's annual contribution rate and actual Township contributions for calendar year 2021 and the fiscal year ended March 31, 2022 are summarized below. The Township also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

| Plan member required contribution rate | 4.50% |
|--|--------------|
| Township required contribution rate for 2021 | 8.53% |
| Township required contribution rate for 2022 | 6.25% |
| Township actual contributions for 2021 | \$ 62,781 |
| Township actual contributions for fiscal year 2022 | \$ 61,360 |

NOTE 10: LEGAL DEBT MARGIN

Legal debt margin is the percent of the Township's assessed valuation which is subject to debt limitation. The statutory debt limitation for the Township is 2.875%. The Township's legal debt margin limitation is as follows for the period ended March 31, 2022:

| Assessed valuation (2021) | <u>\$</u> | 1,718,702,508 |
|--|-----------|---------------|
| Statutory debt limitation (2.875%) | \$ | 45,562,829 |
| Amount of debt applicable to debt limitation | | 135,682 |
| Legal Debt Margin | _\$_ | 45,427,147 |

NOTE 11: SUBSEQUENT EVENTS

Management evaluated subsequent events through July 18, 2022, the date the financial statements were available to be issued. There were no other events that require or adjustments or disclosure in the Township's financial statements as of March 31, 2022.

NOTE 12: INTERFUND ACTIVITY

The Board approved a \$25,000 transfer from the General Fund to the General Assistance Fund to cover operating expenditures during the year ended March 31, 2022.

NOTE 13: FUND BALANCE - GASB 54 PRESENTATION

According to Government Accounting Standards, fund balances are to be classified into five major classifications: Non-spendable Fund Balance, Restricted Fund Balance, Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance.

A. Non-spendable Fund Balance

The non-spendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts.

B. Restricted Fund Balance

The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity. Restrictions may be imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. The Township has several revenue sources within different funds that fall into this category.

- Motor Fuel Tax. Receipts and related disbursements of these restricted funds are accounted for in the Road & Bridge Fund. Revenues received exceeded expenditures disbursed for this purpose, resulting in an increase in the restricted fund balance to \$308,591, accounted for in the Road and Bridge Fund.
- 2. <u>General Assistance Levy</u>. Cash disbursed and the related cash receipts of this restricted tax levy are accounted for in the General Assistance Fund. Expenditures disbursed exceeded revenues received for this purpose, resulting in a restricted fund balance of \$26,999.

C. Committed Fund Balance

The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority (the Board). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts. There were no committed fund balances as of March 31, 2022.

D. Assigned Fund Balance

The assigned fund balance classification refers to amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. Intent may be expressed by the Board itself or the Supervisor when the Board has delegated the authority to assign amounts to be used for specific purposes.

At the direction of the Board of Trustees, unexpended funds in the Road & Bridge Fund are designated for use by the Troy Township Road District, a blended component unit of the Township. At March 31, 2022, \$1,112,034 of the Road & Bridge Fund Balance is considered assigned for this purpose.

NOTE 13: FUND BALANCE - GASB 54 PRESENTATION - (Continued)

E. Unassigned Fund Balance

The unassigned fund balance classification is the residual classification for amounts in the General Fund for amounts that have not been restricted, committed, or assigned to specific purposes within the General Fund. The unassigned fund balance was \$1,229,283.

F. Expenditures of Fund Balance

Unless specifically identified, expenditures act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

NOTE 1: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets and Budgetary Accounting

The Township adheres to the following procedures in establishing the budgetary data included in the financial statements:

- Within the first three months of its fiscal year, the Township Board prepares the proposed combined annual budget and appropriation ordinance for the fiscal year commencing April 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. Prior to June 30, the annual budget and appropriations ordinance is legally adopted through passage of an ordinance.
- 4. The Township Board may transfer up to 10% of the total appropriation between various items within any fund.
- 5. Formal budgetary integration is employed as a management control device during the year for the General Fund and the Special Revenue Funds.
- 6. The 2021-2022 budget and appropriation ordinances, formulated on the cash basis of accounting, were adopted by the Board on April 19, 2021 and were not amended; however, line transfers of appropriations were approved by the Board on March 21, 2022. Such transfers are reflected in the final budgeted amounts.

A summary of budget to actual comparisons for the major funds is disclosed below:

| Description | Budget | Actual | Variance | Variance |
|--------------------|-----------------|-----------|----------|----------|
| General Town Fund | \$ 1,166,995 | 1,052,253 | 114,742 | 10% |
| Road Fund* | 1,639,275 | 987,431 | 651,844 | 40% |
| General Assistance | 77,265 | 53,899 | 23,366 | 30% |

^{*} The Township does not include appropriations for Motor Fuel Tax expenditures in its budget. Motor Fuel Tax expenditures have, therefore, been excluded from the "Actual" Road and Bridge expenditures included in the comparison above, as they are maintained by the County on behalf of the Township.

All funds operated within the confines of the approved budget for the year ended March 31, 2022.

Retirement age Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016.

Mortality For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match

current IMRF experience.
