October 17, 2022

Troy Township Board of Trustees,

Supervisor Joseph D. Baltz and I are pleased to present you with the 2022 levy proposals for the Road and Bridge Fund and the Town Fund which also includes General Assistance. The 2022 levy funds will be received during the 2023-2024 fiscal year funding the budgets for the General Town Fund, General Assistance Fund, and the Road and Bridge Fund for Troy Township.

The 2022 levy year is unique. There are three major components of the levy calculation process that are going to affect this year's numbers and will make the process different from years past.

Increase to Existing Property. The residential housing market has seen a record pace of sales and record selling prices in what industry experts call the "Covid housing boom". For approximately two years now, homes have been selling higher than asking price with multiple bidders driving up the price. Higher home sales prices mean higher assessed values. The factor issued by the State of Illinois to increase the value of existing property in Troy Township for 2022 was **6.3%**.

Consumer Price Index. The higher prices of items like used cars, food, shelter, etc. drove up inflation in the United States. This led to a Consumer Price Index of 7%, December 2020 to December 2021, the largest 12-month increase seen since June of 1982, according to the US Department of Labor.

New Construction. The Township continues to grow. As of August 19, 2022, Assessor Anderson already has approximately \$27,540,000 in new construction. Assessor Anderson and her team have a deadline of October 7, 2022, for entering new construction, therefore this figure can and will increase.

As you know, the Township is subject to PTELL (see page 17), which states "Increases in property tax extensions are limited to the lesser of 5% or the increase in the national Consumer Price Index (CPI) for the year preceding the levy year". With CPI being 7%, the increase to the taxing district's levy over the prior year's extension can be 5%. Per PTELL, a taxing district can receive more than a 5% increase for various reasons including new construction, the expiration of a TIF district, etc. Taxing bodies are also subject to Truth-in-Taxation which sets specific procedures and guidelines if a taxing body is going to file a levy in excess of 5%, regardless of the reason.

At this time both levies are proposed to be filed at 107.3% of the prior year's extension. This is being done to ensure the township has captured **all possible new property** and to ensure that the Road and Bridge Fund levy has been filed to the maximum allowable rate so that the Road and Bridge Fund is able to petition Will County for County Aid to Road and Bridge when necessary.

Additionally, our Road District needs significant building improvements for the office and garage space originally built in the 1970's. Some improvements have been made over time, but many more are still needed. In addition to the many road projects and capital improvements outlined on page 29, the Road

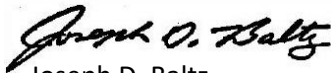

District is also currently working on the Shepley Road Bridge relocation and replacement project with an estimated cost over \$7.875 million, of which the Road District is responsible for 10%.

Our Township Office Building and Community Center is about to undergo interior renovations to create one central public entry point off the parking lot at the community center and update interior office space. The new entrance and lobby area will feature a reception desk with both traditional height and handicapped accessible height counters as well as a secure entry to the back-office space. Additional interior renovations are taking place in the Assessor's office space which is in the portion of the building built in the mid-1980's. Space reconfiguration is the largest portion of the project which will allow for additional workstations to house staff as the Township continues to grow. Exterior repairs to the EIFS and the HVAC Rooftop Unit are also scheduled to be completed. These projects are being paid for with the use of cash reserves and will not require the issuance of any debt. It is estimated that the completion of this project will decrease the cash reserve balance from approximately 14 months to just under 9 months of reserves; a very stable place for the Township to be.

However, the building itself continues to age and other capital improvements need to be planned for. Pages 38 – 39 of this proposal offer a schedule of those items. The proposed increase in the 2022 Town Fund levy will help to ensure the Township maintains an adequate cash reserve balance to allow for future capital expenditures.

Thank you in advance for your time and consideration. We look forward to the upcoming Board Workshops and/or Finance Committee meetings and some very productive conversations.

Respectfully Submitted,

Joseph D. Baltz
Supervisor

Mission Statement

Our goal at Troy Township is simple – extraordinary customer service as we provide for our constituents’ needs in the arena of public service. Our goals are accomplished by a commitment from every employee.

Our values and beliefs require that we:

- Treat each employee with respect and give them an opportunity for input on how to continually improve our service goals.
- Treat each employee fairly and with mutual respect. The Township does not tolerate discrimination of any kind and encourages all managers and department heads to involve employees in problem solving and the creativity process. When problems arise, the facts should be analyzed to determine ways to avoid similar problems in the future.
- Provide the most effective and efficient corrective action, resolve customer service issues, ensure our constituents’ satisfaction and that the problem not be repeated in the future. In this way, we will maintain our leadership position in providing service.
- Foster an open-door policy which encourages interaction, discussions and ideas to improve the work environment, thus increase our productivity.
- Deliver impeccable service to our constituents and, where required, try to provide services that may be too difficult for others to achieve.

Make “Do It Right the First Time” our commitment as a team and our only way of doing business. This commitment will assure continued satisfaction.

Township government, established in Providence, Rhode Island, in 1636, is the oldest existing form of government continuing to serve on the North American Continent. Township government was in existence for 140 years prior to the signing of the Declaration of Independence in 1776. The wording of the Declaration of Independence reflects the fact that 38 of its 56 signers had experienced the benefits of township government.

The Declaration's statement that "government should derive its just powers from the consent of the governed" is demonstrated at the Annual Town Meeting held on the second Tuesday of each April. The Annual Town Meeting is still an important function of our nation's 17,000 townships after more than 360 years.

In 1849, the first townships were formed in Illinois and began operating one year later. Troy Township was one of the first organized in the County, and on April 2, 1850, the first election was held. The first Troy Township Supervisor elected was J.H. Robinson. Today, 85 of Illinois' 102 counties operate under the township government system with 1,433 townships serving Illinois residents.

Troy Township continues to provide the same basic services it did over 170 years ago.

- General Assistance
- Property Assessment
- Road and Bridge Maintenance

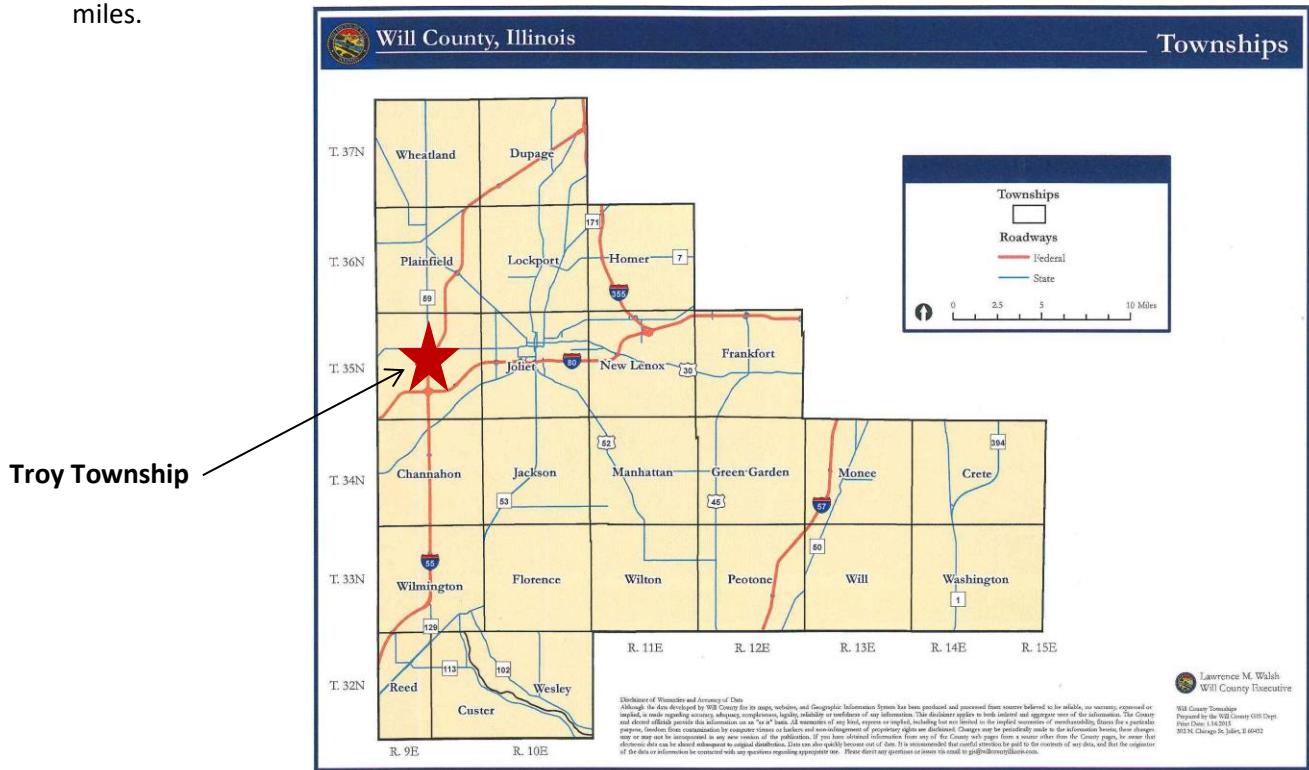

Other Troy Township services include a senior program, voter registration, polling place for elections, notary services, weed control, Micro Pantry, durable medical equipment loan program, recycling services, Township Communicator newsletter, referral services and more.

2022 Levy Calendar

August 1, 2022 to October 16, 2022

Initial levy compilation with Administrator, Supervisor, Assessor, and Highway Commissioner.

October 17, 2022

Supervisor presents levy recommendation to the Board.

October 17, 2022 to November 20, 2022

Finance Committee Meeting(s).

November 21, 2022

Troy Township Board to adopt the levy estimates in open meeting 20 days prior to adopting the levy ordinances. This will determine if the levy is greater than 105% of the preceding year's levy and if a hearing must be scheduled.

December 5, 2022 to December 12, 2022

If a hearing is needed, notice must be published at least seven days but no longer than fourteen days before the public hearing.

December 19, 2022

Public hearing and adoption of the levies by the Troy Township Board.

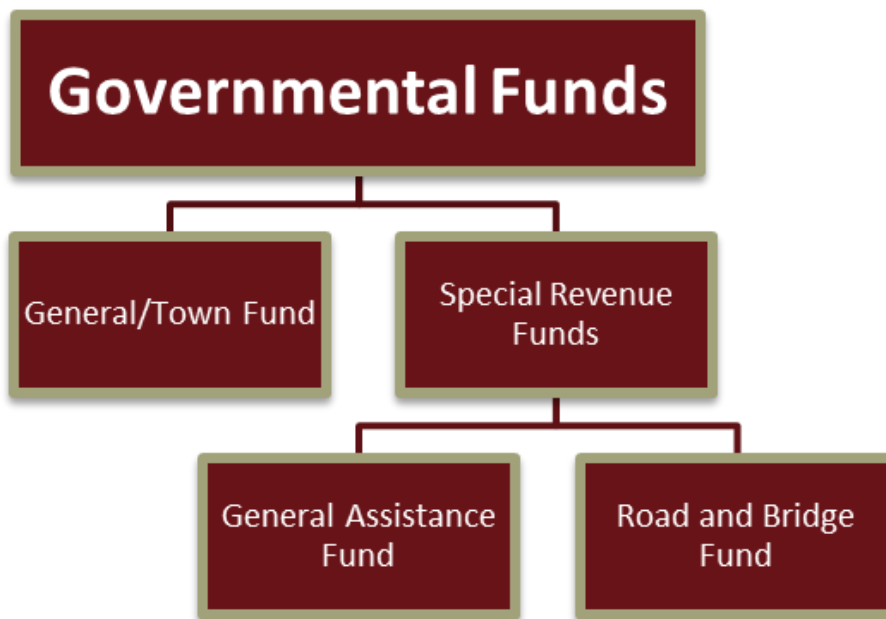

December 27, 2022

Last day to certify the levies to the Will County Clerk.

(35 ILCS 200/18-15)

Sec. 18-15. Filing of levies of taxing districts.

(a) Notwithstanding any other law to the contrary, all taxing districts, other than a school district subject to the authority of a Financial Oversight Panel pursuant to Article 1H of the School Code, shall annually certify to the county clerk, on or before the last Tuesday in December, the several amounts that they have levied.

The financial transactions of the Township are recorded in individual funds. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures.

Governmental funds are those by which most governmental functions of the Township are financed. The Township's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination. The Township reports the following major governmental funds:

General Town Fund – the Town Fund is the general operating fund of the Township and accounts for all financial resources except those required to be accounted for in another fund.

General Assistance Fund (special revenue) – accounts for the revenue and all expenditures of activities related to General Assistance programs and services for low-income residents.

Road and Bridge Fund (special revenue) – accounts for the revenue and expenditures needed to finance the maintenance and construction of the Township's roads and bridges.

The Process of Estimating the Levy

There are many contributing facts and figures that go in to estimating a taxing district's levy. Factors include but are not limited to:

- The district's major revenue sources and availability of funds.
- Current fund balances, current debt obligations, upcoming capital improvements/purchases, and anticipated need for future debt.
- Truth in Taxation Procedures
- Property Tax Extension Limitation Law (PTELL)
- Consumer Price Index
- Estimating New Property and Inflation on Existing Property
- Tax Incremental Financing (TIF) Districts
- Calculating the Limiting Rate
- The cost impact of the levy on taxpayers.

Over the next few pages, we offer a brief explanation of most of the major contributing factors.

Major Revenue Sources

Troy Township does not receive any sales tax or income tax. General property taxes are the Township's major revenue source with other revenue coming from personal property replacement taxes, grants, fines, and interest income.

Revenue Summary for Fiscal Year Ending March 31, 2022

	Road & Bridge Fund		General Town Fund		General Assistance	
Ordinary Income/Expense						
Income						
4200 · State Grants	0.00	0.00%	2,784.90	0.21%	0.00	0.00%

4999 · Operating Transfer In	0.00	0.00%	0.00	0.00%	25,000.00	55.43%
Total Income	1,130,904.47	100.00%	1,310,078.73	100.00%	45,098.32	100.00%

Property Taxes – The Township levies for property taxes for the Road and Bridge Fund and for the General Town Fund, which also funds the Assessor's budget and the General Assistance Fund. The amount of funds received in general property taxes is limited by the Property Tax Extension Limitation Law (PTELL) 35 ILCS 200/18-185. PTELL limits the increase in property tax that the Township may levy to 5% over the prior year's extension or the increase in the Consumer Price Increase (CPI) during the 12 calendar months for the year preceding the levy year, whichever is less. Some exceptions to the 5% limit do exist and are explained further on page 19.

Replacement Tax – Both the General Town Fund and the Road and Bridge Fund receive payment for [Personal Property Replacement Taxes \(PPRT\)](#). Replacement taxes are revenues collected by the State of Illinois and paid to local governments to replace money that was lost by local governments when their powers to impose personal property taxes on corporations, partnerships, and other business entities were taken away. Payments to the Township for Replacement Taxes are made in January, March, April, May, July, August, October, and December.

While Personal Property Replacement Tax (PPRT) continues to be the second largest revenue stream for both the Road District and the Town Fund, the available funds from PPRT have varied over the past years and are difficult to budget.

Personal Property Replacement Tax

The State of Illinois estimated for their fiscal year:

- [2020 PPRT payments](#) would increase by 15.4% from the prior year allocations. The actual funds received increased by only 11.01%.
- [2021 PPRT payments](#) would decrease by 17.4% from the prior year allocations. The actual funds received increased by 25.38%.
- [2022 PPRT payments](#) would increase by 14.3% from the prior year allocations. The actual funds received increased by 117.97%.

The State of Illinois reported that the [2023 PPRT payments](#) are estimated to increase by 7.5% from the prior year allocations.

Truth in Taxation ([35 ILCS 200/18-55](#)) establishes certain procedures that a taxing district must follow when adopting their levy. The procedures are prescribed in Illinois law 35 ILCS 200/18-55 through 35 ILCS 200/18-100.

In the simplest of terms, to comply with Truth in Taxation the Township must:

1. Determine the Proposed Aggregate Tax Levy – How much will the Township levy for?
2. Calculate the Percentage Increase – How much has the proposed levy increased over the prior year?
3. Adopt the Estimate of the Levy – this must be done in an open public meeting and not less than 20 days before adopting the levy ordinance. If the estimate of the levy to be adopted is more than a 5% increase over the prior year's extension, the Township must publish notice of such and hold a hearing.
4. Publish Notice – the notice published must meet certain legal requirements and must be published no more than 14 days and no less than 7 days before the date of the public hearing.
5. Conduct the Public Hearing – The hearing is open to the public and must allow for public comment. At the public hearing the Township must explain the reason for the levy and the proposed increase. After the hearing, the Township can adopt the levy. Should the levy be adopted at an amount higher than what was published in the notice, a second notice will be required.

Because the requirements of Truth in Taxation are so stringent with regards to the required published notice and public hearing, it is best practice for the Township to consult with its attorney to ensure all requirements have been met if the proposed levy amount is such that it requires notice and a hearing.

In addition to being subject to Truth in Taxation the Township is also in a county that is subject to the Property Tax Extension Limitation Law commonly referred to as PTELL. PTELL limits the amount of the Township's proposed aggregate levy to the increase in CPI or 5%, whichever is less. PTELL is explained further on the following pages.

Property Tax Extension Limitation Law - PTELL

When calculating the levy for either the Town Fund or the Road Fund, one must remember that the Township is subject to PTELL. As explained by the Illinois Department of Revenue:

Illinois Department of Revenue

An Overview of the Property Tax Extension Limitation Law by Referendum

What is the Property Tax Extension Limitation Law (PTELL)?

The PTELL is designed to limit the increases in property tax extensions (total taxes billed) for non-home rule taxing districts.

Although the law is commonly referred to as "tax caps," use of this phrase can be misleading. The PTELL does not "cap" either individual property tax bills or individual property assessments. Instead, the PTELL allows a taxing district to receive a limited inflationary increase in tax extensions on existing property, plus an additional amount for new construction.

The limit slows the growth of revenues to taxing districts when property values and assessments are increasing faster than the rate of inflation. As a whole, property owners have some protection from tax bills that increase only because the market value of their property is rising rapidly.

Payments for bonds issued without voter approval are subject to strict limitations.

If a taxing district determines that it needs more money than is allowed by the limitation, it can ask the voters to approve an increase.

The collar counties (DuPage, Kane, Lake, McHenry, and Will) became subject to the PTELL for the 1991 levy year for taxes paid in 1992; Cook County was added for the 1994 levy year for taxes paid in 1995. Public Act 89-510 allows county boards to give voters in all other counties the opportunity to decide if the PTELL should apply to their counties. In addition, Public Act 89-718 allows county boards of counties that are subject to the PTELL by referendum to give voters the opportunity to rescind the PTELL using the same referendum process.

Public Act 94-976 amended PTELL effective June 30, 2006. The significant amendments include:

- New supplemental ballot and election notice information.
- Additional taxing district voter-approved referenda and other referenda changes.
- Authority for taxing districts in some instances to exceed a voter-approved rate limit for a fund as long as the sum of all the rates for funds subject to PTELL, does not exceed the limiting rate.

What is the "limitation"?

Increases in property tax extensions are limited to the lesser of 5% or the increase in the national Consumer Price Index (CPI) for the year preceding the levy year. The limitation can be increased for a taxing body with voter approval.

The CPI used is for all urban consumers for all items as published by the United States Department of Labor. A CPI history of the limitation is available on our website at tax.illinois.gov/LocalGovernment/PropertyTax/CPIhistory.

Can the district receive more than a 5% or the CPI increase?

Taxing districts are allowed additional increases for

- new construction,
- annexations to the district,
- voter-approved increases in the extension limit or limitation for one or more levy years,
- voter-approved increases in tax rates and voter-approved new tax rates for one or more levy years, and
- the Tax Increment Financing district (TIF) increment when the TIF expires.

PIO-62 (R-02/12)
Visit <https://www2.illinois.gov/rev/research/publications/Documents/pios/pio-62.pdf> for additional information on PTELL

Consumer Price Index (CPI)

CPI is a key figure in the formula to calculate the limiting rate.

Below is a sixteen-year history of the Consumer Price Index All Urban Consumers (CPI-U) U.S. City Average All Items December – December Percentage Change:

This is the same index used by the County Clerk in the formula to determine a taxing body's limiting rate. <http://www.bls.gov/cpi/#tables>

Dec-06	2.50%	Dec-14	0.80%
Dec-07	4.10%	Dec-15	0.70%
Dec-08	0.10%	Dec-16	2.10%
Dec-09	2.70%	Dec-17	2.10%
Dec-10	1.50%	Dec-18	1.9%
Dec-11	3.00%	Dec-19	2.3%
Dec-12	1.70%	Dec-20	1.4%
Dec-13	1.50%	Dec-21	7.0%

Estimating New Property, Inflation on Existing Property

When calculating the estimated limiting rate, look at the value of your existing property, estimate how much the value has increased or decreased over the past year, and estimate how much new property was added.

Assessor Anderson has informed us that **a factor of 6.3% was the final increase for existing property.**

As of August 19, 2022, Assessor Anderson has **estimated new property to date as \$27,540,000** but the deadline to enter new property is not until October 7, 2022, so this figure is expected to increase. A final new property value will not be received from the Supervisor of Assessment's Office until approximately November 1, 2022.

TIF Districts and exemptions must also be taken into consideration. More information about TIF Districts can be found on the following pages.

TIF (Tax Incremental Financing) Districts

What is a TIF District?

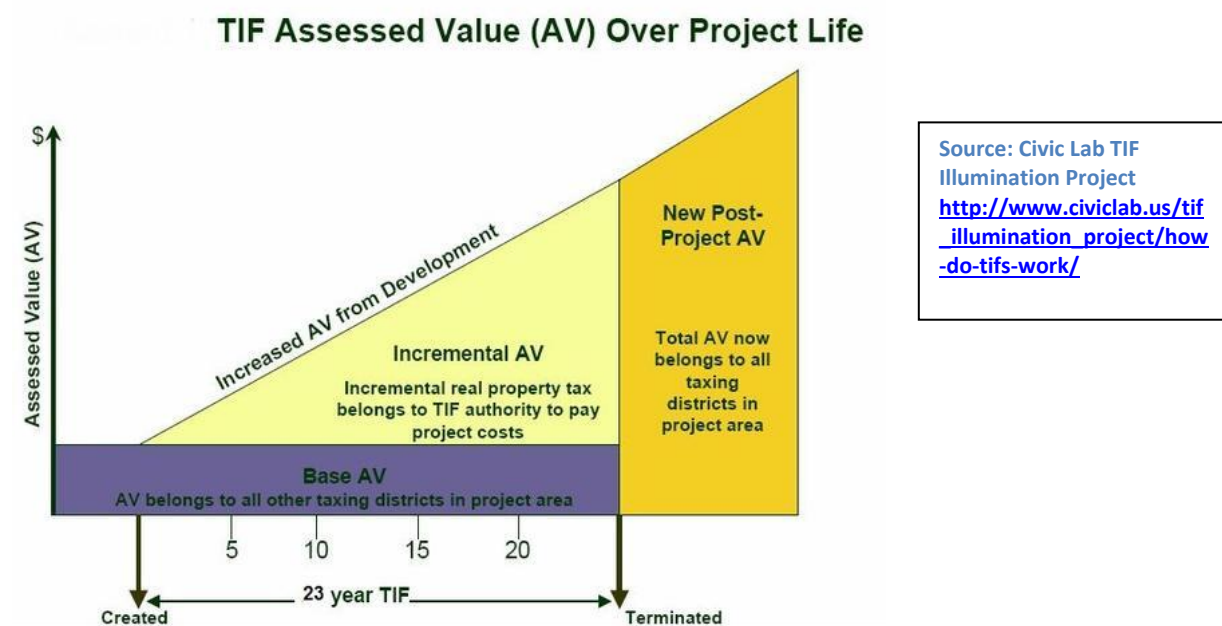

As found on the Village of Shorewood's website:

Tax Increment Financing, or TIF, is a municipal financial incentive tool created by the Illinois State Legislature in 1978 to assist communities in implementing sound economic development and combat or prevent blight. TIF helps local governments restore areas going through economic change or jumpstart economically sluggish parts of town. With this tool, financially strapped local governments can make the improvements they need, like new roads or new sewers, to attract businesses or help existing businesses expand, without tapping into general funds or raising taxes.

Once the TIF District is established, the property tax dollars that are collected annually and distributed to the various taxing bodies is maintained at the current levels. If property in the TIF District increases in assessed value, such as if new development were to occur on vacant property, the additional property tax revenue that is generated by this new development (known as the Increment) will go into the TIF funds to be used for TIF qualified costs such as public improvements. Creation of a TIF District does not in and of itself mean that development or redevelopment will occur. Market factors will be the principal factor driving any development.

This means that the assessed value of all property located within the defined boundaries of the approved TIF District will be frozen at the "base" assessed value, and the Township will not realize any increase in the tax dollars generated by the increase in assessed value of the TIF District until the TIF is terminated.

The chart below shows an example of the TIF assessed value over the life of the TIF District:

TIF (Tax Incremental Financing) Districts

There are currently three TIF Districts within Troy Township.

Rockdale TIF 1

While Troy Township is impacted by **Rockdale TIF 1** which was enacted in 2012 with a base year of 2011 for assessed value, there are only two parcels in this TIF which are in Troy Township. Those two parcels have an assessed value totaling \$239,646 representing only a miniscule percentage of the Township total assessed value. Neither parcel has seen an increase in assessed value since the TIF was enacted.

Village of Shorewood Jefferson Street & Illinois Route 59 TIF District

In January of 2017, the Village of Shorewood created the **Jefferson Street & Illinois Route 59 TIF District** with a base year of 2015 for assessed value. The Will County Clerk's Office has estimated the following values for us:

- 2015 Base EAV for TIF District \$20,516,403
- [2021 Levy TIF Increased Value \\$4,449,418](#)

More information and a detailed map of the Village of Shorewood Jefferson Street and Route 59 TIF District can be found on the Village's website at http://vil.shorewood.il.us/departments/community-development/52and59_tifdistrict.aspx.

Joliet TIF 7 – Rock Run Crossings

In 2021, the City of Joliet passed the necessary ordinances to establish the Rock Run Crossings Redevelopment Project as a TIF District with a base year of 2020. The TIF District is located in the northeast quadrant of where Interstate I 55 intersects with Interstate I 80. The Will County Clerk's Office has estimated the following values for us:

- 2020 Base EAV for TIF District \$164,459
- [2021 Levy TIF Increased Value \\$17,728](#)

More information can be found on the City of Joliet's website at: <https://www.joliet.gov/business/economic-development/incentives/tax-increment-financing>.

Calculating the Limiting Rate

The levy is the process of calculating the funds from general real estate taxes that are expected to be needed to fund operations for the fiscal year which will start the following April.

How much a township can levy for is restricted by:

CAP Rate - The absolute maximum rate. (.2500 for the Town Fund, .1000 for General Assistance, .6600 for R&B)

PTELL – Property Tax Extension Limitation Law (see full description on page 19) limits the increase in property tax that the Township may levy to 5% over the prior year's extension¹ or the increase in the Consumer Price Increase (CPI) during the 12 calendar months for the year preceding the levy year (this is known as the limiting rate), whichever is less. Exceptions, like new property, to the 5% limitation are outlined on page 19 as well.

Other factors that go into calculating the limiting rate include **increase or decrease in value of existing property, addition of new property, new annexations, and any disconnections.**

Calculating the Limiting Rate

LIMITING RATE: CALCULATE BY MULTIPLYING THE AGGREGATE EXTENSION BASE, BY THE EXTENSION LIMITATION (CPI Urban Index), BY ANY RATE INCREASE FACTOR. THEN DIVIDE THAT ANSWER BY THE SUM OF NET EAV MINUS NEW PROPERTY, MINUS ANNEXATIONS, PLUS DISCONNECTIONS. THIS QUOTIENT IS THE LIMITING RATE.

$$\frac{(\text{AGGR. EXT. BASE}) \times (\text{EXT. LIMITATION \%}) \times (\text{RATE INCR. FACTOR})}{(\text{NET EAV}) - (\text{NEW PROPERTY}) - (\text{ANNEXATIONS}) + (\text{DISCONNECTIONS})} = \text{Limiting Rate}$$

The example below is the Road & Bridge Fund 2021 Levy being collected in 2022

AGG. EXT. BASE X 1,463,322.80	EXT. LIMITATION % X 101.40%	RATE INCR. FACTOR = N/A		1,483,809.32	Limiting Rate 0.0875%
1,718,702,508.00 NET EAV	23,336,242.00 MINUS NEW PROPERTY	0.00 MINUS ANNEXATIONS	0.00 PLUS DISCONNECTIONS =	1,695,366,266.00	

¹ If a district reduced its aggregate extension in the prior year, the highest of the previous three years' aggregate extensions may be used as the aggregate extension base.

Estimating the Levy – Road Fund

Using the formulas and information described on the previous pages, below are summary calculations for the Road Fund Levy. The calculations illustrate various scenarios showing the tax rate and levy limitation amounts and how those figures change as the values for new property and CPI change. Also shown is the cost to an existing home with a \$250,000 market value.

Reminder: the final figure for new property will not be received until approximately November 1, 2022.

Road Fund

Road and Bridge Fund 2022 Levy Calculations

The chart below shows a six-year history of the figures used in calculating the levy including EAV, New Property, CPI, Rates and Levy Amounts. These figures are used to calculate the estimated limiting rate.

For the purposes of filing the levy, and to ensure the Road District has levied to the maximum allowable rate to continue to allow the Road District to petition for County Aid to Road and Bridge², the Road District levy is proposed to be filed using an increase to existing property of 6.3%³, a CPI value of 5%, and an estimated new property value of 40,000,000. Doing so will result in a levy in excess of 105% of the prior year's extension and will trigger the public notice and public hearing requirements of Truth-In-Taxation.

The necessary reduction for the TIF Districts is included within the value for inflation.

	2016 Actual	2017 Actual	2018 Actual	2019 Actual	2020 Actual	2021 Actual	2022 Estimate
± Inflation	52,157,765	43,374,360	56,725,768	80,088,250	53,062,600	24,906,446	103,528,619

The estimated limiting rate for Road and Bridge is 0.0867%.

² Section 605 ILCS 5/5-501 in order to petition the County for aid, the road district must have filed for the maximum allowable tax rate for the two prior years. More information can be found on page 28.

³ This refers to the increase in value to existing property, not the value of CPI. The increase to existing property is discussed in more detail on pages 6 and 21.

Road and Bridge Fund 2022 Levy Calculations

Using the estimated limiting rate, the chart below shows how the increase in tax dollars breaks down between existing property and new property.

Estimated Revenue: Calculate by Multiplying the limiting rate estimate by the net eav estimate			
LIMITING RATE % X	NET EAV EST. =		
0.0867%	1,862,231,126.81	\$	1,613,720.00
This is an increase of \$ 109,855.31 and 7.30% over last year's extension.			

Break Down the Estimated Limiting Rate Increase Between CPI and New Property:				\$	109,855.31
A: Multiply the prior year's extension by CPI:					
Prior Year's Extension:		CPI		Increase as a result of CPI:	
1,503,864.69	X	5.00%	=	\$ 75,193.23	68%
B: Multiply the estimated new property figure by the estimated limiting rate:					
Estimated New Property		Estimated Limiting Rate		Increase as a result of new property:	
40,000,000	X	0.0867%	=	\$ 34,662.08	32%
Step 3: Add A plus B for the total:				\$	109,855.31

Proposed 2022 R&B Levy \$1,613,720.00

Summary:

Proposed Increase from Prior Year:	7.30% or \$109,855.31 Increase / Rate .0867
2021 Extended Levy	\$1,503,864.69 / Rate .0875
Dec. 2021 CPI	7.00%

Because final figures for new property are not available, we are only able to estimate what the Road District's levy will be limited to once the County applies the PTELL calculations. We believe the new property values will range between \$30,000,000 and \$35,000,000 and hence the County will limit the levy to between \$1,605,054.48 and \$1,609,387.24.

Factors Supporting Proposed Levy

- County Aid to Road and Bridge: In order to petition Will County to financially assist the Road District with costly projects, specific levy requirements must be met.
 - ***Pursuant to Section 605 ILCS 5/5-501 in order to petition the County for aid, the road district must have filed for the maximum allowable tax rate for the two prior years. ...and the cost of which work will be more than .02% of the value of all the taxable property in such road district or municipality, as equalized or assessed by the Department of Revenue, and the tax rate for road purposes in such road district was in each year for the 2 years last past not less than the maximum allowable rate...***
- Shepley Road Bridge replacement is estimated at approximately \$7,875,783 (as of August 2022). Phase 1 Engineering started in September of 2020. The estimated Phase 1 Engineering costs are \$207,041. The project is 80% funded through a federal grant, 10% funded by the Township, and 10% funded by Will County via the County Aid to Road and Bridge program. This project is expected to take several years to complete, and costs will continue to increase over time.
- Preliminary estimates for new construction are being used. Final new construction figures must be submitted to Will County on October 7, 2022. Final new construction figures will not be received back from Will County until early November.
- Levying for higher than what you expect to be limited to in order to ensure capturing all new property.
- Financial security to maintain an adequate reserve balance.
- Saving for upcoming Capital Improvement Projects.
 - Equipment repairs and replacement.
 - Road maintenance including drainage improvements and paving.
 - Facility repairs and renovations.
- Due to the municipal half share, the Road District will only receive approximately 53.5% of the increase. The balance is distributed directly to the municipalities.

Road and Bridge - Capital Improvement Projects/Needs

All costs listed below are approximate.

Bridges

- SHEPLEY RD. BRIDGE OVER DUPAGE RIVER \$7,875,783: (IDOT Structure #0994252). Anticipated cost split 80% grant funding, 10% Will County via County Aid to Road and Bridge, 10% Troy Road District
- RIVER RD. BRIDGE OVER I-80: Bridge Deck surface repairs, sidewalks & handrails \$75,000.00 (IDOT Structure #0990177) **IDOT has the bridge slated for full replacement in 2023/2024.**

Roads

- Camelot Subdivision Grind and Resurface:
 - Camelot Road \$70,000
 - Camelot Frontage Rd. \$110,000
 - Althea Ct. \$65,000
- Red Oak Estates Grind and Resurface:
 - W. Red Oak Lane and S. Burr Ridge Dr. \$75,000
- Ron Lee Estates Grind and Resurface:
 - Entire Subdivision. \$245,000
- Timberline Subdivision Grind and Resurface:
 - Timberline Dr. \$135,000
- County Farm Rd. & Rock Run Drive Resurface \$135,000
- Main Collector Streets Grind and Resurface:
 - County Line Rd. \$245,000
 - Seil Rd. (Troy Hwy Portion) \$60,000
 - River Rd. (Troy Hwy. Portion) \$70,000
 - Shepley Rd. \$135,000
 - Canal Rd. \$135,000

Storm Water

- Ron Lee Estates:
 - Replace deteriorating storm sewer along S. Sarver Drive from Seil Rd. to Jensen St. including W. Clarage Ct. and W. Ronnie Ct. \$402,000
- Murphy Acres:
 - Erosion control blanket in a ditch that carries overflow water from Joliet City detention pond from Barber Ln. to Rosary Ln. \$40,000
- Murphy Acres and Rooney Heights:
 - Update ditch drainage and add storm work \$tbd
- Longleat Subdivision:
 - Replace deteriorating storm sewer catch basins and drainage pipe \$75,000
- Camelot Subdivision
 - Petroleum pipeline interfering with front property drainage. Drainage needs to be routed over or under the pipe. \$120,000

Building/Facility Infrastructure Improvements

- Road District - SALT DOME \$190,000
- Road District – New roof and new siding on main building \$270,000
- Road District – Convert cold storage garage to heated service shop \$110,000

Road and Bridge – History of the Half Share

(605 ILCS 5/6-507) (from Ch. 121, par. 6-507) states that *one half the tax required to be levied by Section 6-501 of this Code, on the property lying within a municipality in which the streets and alleys are under the care of the municipality shall be paid over to the treasurer of the municipality, to be appropriated to the improvement of roads or streets, either within or without the municipality and within the road district under the direction of the corporate authorities of the municipality. However, when any of the tax is expended beyond the limits of the municipality it shall be with the consent of the highway commissioner of the road district.*

Below is a five year history of the half share as applied to the Road District levy.

Levy Year	Year Paid	Levy as Filed	Extended	Received by Troy R&B	Percentage to Troy R&B
2021	2022	\$ 1,535,758.00	\$ 1,505,583.39	\$ 805,530.16	53.50%
2020	2021	\$ 1,471,969.61	\$ 1,463,322.80	\$ 781,926.55	53.44%
2019	2020	\$ 1,411,904.00	\$ 1,402,542.74	\$ 750,623.75	53.52%
2018	2019	\$ 1,364,467.78	\$ 1,345,310.92	\$ 720,890.23	53.59%
2017	2018	\$ 1,323,666.00	\$ 1,300,731.92	\$ 697,523.70	53.63%

The past three-year average of the percentage to R&B is 53.5%.

The chart below shows a five-year summary of the levy as filed, the extended levy, the actual dollars received, the R&B Fund's ending cash balance, and the R&B Fund tax rate. Please take note of the trend of actual dollars received being less than the approved extension.

Footnotes

1 - PA 102-0519 Provides, beginning in levy year 2021, a taxing district levy shall be increased by a prior year adjustment whenever an assessment decrease due to the issuance of a certificate of error, a court order issued pursuant to an assessment valuation complaint under Section 23-15, or a final administrative decision of the Property Tax Appeal Board results in a refund from the taxing district of a portion of the property tax revenue distributed to the taxing district. For purposes of the Property Tax Extension Limitation Law, the taxing district's most recent aggregate extension base shall not include the prior year adjustment authorized in PA 102-0519.

2 - YTD Receipts as of 09.28.22. Three installments remain. Based on a three year average of receiving approximately 99.87% of the extended levy, the R&B Fund is estimated to receive \$804,482.00 in property taxes in the 2022-2023 fiscal year.

3 - Months of reserve based on the annual average expenditure of the previous 3 fiscal years.

Estimating the Levy – Town Fund

Using the formulas and information described on the previous pages, below are summary calculations for the Town Fund Levy. The calculations illustrate various scenarios showing the tax rate and levy limitation amounts and how those figures change as the values for new property and CPI change. Also shown is the cost to an existing home with a \$250,000 market value.

Reminder: the final figure for new property will not be received until approximately November 1, 2022.

Town Fund 2021 Tax Rate: 0.0742 \$ 1,275,277.26 2021 Levy Extension

Town Fund 2022 Levy Calculations

The chart below shows a six-year history of the figures used in calculating the levy including EAV, New Property, CPI, Rates and Levy Amounts. These figures are used to calculate the estimated limiting rate.

For the purposes of filing the levy the Township levy is proposed to be filed using an increase to existing property of 6.3%⁴, a CPI value of 5%, and an estimated new property value of 40,000,000. Doing so will result in a levy in excess of 105% of the prior year's extension and will trigger the public notice and public hearing requirements of Truth-In-Taxation.

The necessary reduction for the TIF Districts is included within the value for inflation.

	2016 Actual	2017 Actual	2018 Actual	2019 Actual	2020 Actual	2021 Actual	2022 Estimate
± Inflation	52,157,765	43,374,360	56,725,768	80,088,250	53,062,600	24,906,446	103,528,619

RATE CAP .2500						
.1000 GA	0.0801	0.0792	0.0777	0.0751	0.0743	0.0742

LIMITING RATE: CALCULATE BY MULTIPLYING THE AGGREGATE EXTENSION BASE, BY THE EXTENSION LIMITATION, BY ANY RATE INCREASE FACTOR. THEN DIVIDE THAT ANSWER BY THE SUM OF NET EAV MINUS NEW PROPERTY, MINUS ANNEXATIONS, PLUS DISCONNECTIONS. THIS QUOTIENT IS THE LIMITING RATE.

$$\frac{(\text{AGGR. EXT. BASE}) \times (\text{EXT. LIMITATION \%}) \times (\text{RATE INCR. FACTOR})}{(\text{NET EAV}) - (\text{NEW PROPERTY}) - (\text{ANNEXATIONS}) + (\text{DISCONNECTIONS})}$$

AGG. EXT. BASE X	EXT. LIMITATION % X	RATE INCR. FACTOR =		Limiting Rate
1,275,277.26	105.000%	N/A	1,339,041.12	0.0735%
1,862,231,127	40,000,000.00	0.00	0.00	
NET EAV	MINUS NEW PROPERTY	MINUS ANNEXATIONS	PLUS DISCONNECTIONS =	

The estimated limiting rate for the Town Fund is 0.0735%.

⁴ This refers to the increase in value to existing property, not the value of CPI. The increase to existing property is discussed in more detail on pages 6 and 21.

Town Fund 2022 Levy Calculations

Using the estimated limiting rate, the chart below shows how the increase in tax dollars breaks down between existing property and new property.

Estimated Revenue: Calculate by Multiplying the limiting rate estimate by the net eav estimate					
LIMITING RATE % X	NET EAV EST. =				
0.0735%	1,862,231,126.81	\$	1,368,434.56		
This is an increase of \$ <u>93,157.30</u> and <u>7.30%</u> over last year's extension.					
Break Down the Estimated Limiting Rate Increase Between CPI and New Property: \$ 93,157.30					
A: Multiply the prior year's extension by CPI:					
Prior Year's Extension:		CPI		Increase as a result of CPI:	
1,275,277.26	X	5.00%	=	\$ 63,763.86	68%
B: Multiply the estimated new property figure by the estimated limiting rate:					
Estimated New Property		Estimated Limiting Rate		Increase as a result of new property:	
40,000,000	X	0.0735%	=	\$ 29,393.44	32%
Step 3: Add A plus B for the total:				\$ <u>93,157.30</u>	

Town Fund Proposed Levy

Proposed 2022 Town Fund Levy \$1,368,434.00.

Summary:

Proposed Increase from Prior Year:	7.3% or \$93,157.30 Increase / Rate .0735
2021 Extended Levy	\$1,275,277.26 / Rate .0742
Dec. 2021 CPI	7.00%

Because final figures for new property are not available, we are only able to estimate what the Town Fund's levy will be limited to once the County applies the PTELL calculations. We believe the new property values will range between \$30,000,000 and \$35,000,000 and hence the County will limit the levy to between \$1,361,086.20 and \$1,364,760.38.

Factors Supporting Proposed Levy

- Preliminary estimates for new construction are being used. Final new construction figures must be submitted to Will County on October 7, 2022. Final new construction figures will not be received back from Will County until early November.
- Financial security to maintain an adequate reserve balance.
- Saving for upcoming capital improvement projects as the township office building and equipment ages.

Capital Improvement Projects/Needs

The Township maintains a list of capital improvement projects/needs show on pages 38 -39. Some of the larger projects include:

Building/Facility Needs

- Exterior dryvit repairs and building repainting – being completed in the Spring of 2023.
- Community Center tables and chairs, replacement rotation.
- Mechanical Systems (Boilers, Pumps, RTU) – Repairs/Replacements
- 6,000 Sq. Ft. Roof Replacement (Community Center Addition) – 2025
- 4,000 Sq. Ft. Roof Replacement (South Office) – 2035 (paid \$80K in 2015)
- Township SUV 2019-2024 (replace every 5 to 10 years. Purchased new in 2014)

Technology/Equipment Needs

- Computers – individually evaluated every 2 - 3 years to assess need for replacement (ongoing).
- Community Center – technology updates for sound system, wireless microphones, monitors, digital displays, etc. 2022-2023
- Assessor's residential software upgrades or changes. 2020-2025
- Assessor's commercial software program (purchase). 2020-2025
- New multifunction copy/scan/fax units – 2019-2024 (every 5-10 years)

A Note Regarding General Assistance

General Assistance expenses declined significantly when all payroll and benefits were moved from the General Assistance Fund to the Town Fund in the 2022-2023 fiscal year budget. With expenses being reduced, over the next three years the average annual expenditures will of course decline. The General Assistance Fund is estimated to end the 2022-2023 fiscal year with a carryover balance of approximately \$33,300.00⁵ with annual expenses of approximately \$13,000.00 - \$14,000.00 (could vary with demands for General or Emergency Assistance).

60 ILCS 1/85-65 states:

Sec. 85-65. Accumulation of funds. Township funds, including, but not limited to, general assistance funds and excluding the township's capital fund, shall not exceed an amount equal to or greater than 2.5 times the annual average expenditure of the previous 3 fiscal years.

(Source: P.A. 102-231, eff. 7-30-21.)

In order to ensure that the General Assistance fund does not exceed the limit for accumulation of funds, **it is proposed that the amount allocated to the General Assistance fund in 2022 levy be \$5,000.** Reminder, the Town Fund is obligated to fund General Assistance and must transfer funds to General Assistance if the need arises.

⁵ Estimated ending cash balance of the General Assistance Fund for the fiscal year ending March 31, 2023, as of September 30, 2022.

The chart below shows a five-year summary of the levy as filed, the extended levy, the actual dollars received, the Town Fund's ending cash balance, and the Town Fund tax rate. Please take note of the trend of actual dollars received being less than the approved extension in most years.

Footnotes

1 - PA 102-0519 Provides, beginning in levy year 2021, a taxing district levy shall be increased by a prior year adjustment whenever an assessment decrease due to the issuance of a certificate of error, a court order issued pursuant to an assessment valuation complaint under Section 23-15, or a final administrative decision of the Property Tax Appeal Board results in a refund from the taxing district of a portion of the property tax revenue distributed to the taxing district. For purposes of the Property Tax Extension Limitation Law, the taxing district's most recent aggregate extension base shall not include the prior year adjustment authorized in PA 102-0519.

2 - YTD Receipts as of 09.28.22. Three installments remain. Based on a three year average of receiving approximately 99.86% of the extended levy, the Town Fund is estimated to receive \$1,252,958.44 in property taxes in the 2022-2023 fiscal year while GA is expected to receive \$20,596.58 for a total of \$1,273,555.01.

3 - Months of reserve based on the annual average expenditure of the previous 3 fiscal years.

Town Fund – Capital Improvement Projects/Needs

In preparation for future needs, the Township has taken on the project of assessing capital improvement needs and putting together an improvement funding analysis that will allow insight into future projects, future costs, and proper financial planning. This spreadsheet is a work in progress and includes item descriptions, useful life estimates, cost to repair/replace estimates, etc. A sample of this is below. Please keep in mind that this spreadsheet is fluid and changes. As projects are completed and prices change, items are updated. Additionally, the useful life figure is a best estimate. As more research continues to be done, these numbers will be adjusted. The line items highlighted in yellow are impacted by the current 2022-2023 building renovation project.
